

**Future Building Forum on:  
“Low Exergy Supply and Energy Utilisation Structures for High-  
Performance Communities (and Buildings)”**

**May 2006, 29-30 in Frankfurt/M., Germany**

**Organised by:**

- German Heat & Power Association – AGFW e.V.
- Fraunhofer-Institute for Building Physics
- Fraunhofer-Institute for Environmental Safety and Energy Technology
- Hermann-Rietschel-Institute, Technical University of Berlin

**Venue:**

German Heat & Power Association – AGFW e.V.  
Stresemannallee 28  
60596 Frankfurt a. M./Germany

**Workshop program**

The forum intends to reinforce the dialog between professionals from the building technology and from a field of building service equipment. Additionally, projects for energy supply systems will be developed and realised within a feasible new task-shared annex in the IEA implementing agreement on District Heating and Cooling (DHC).

May 29:	11:00 am	Opening
	11:30 am - 3:00 pm	Presentation of related issues / latest developments
	3:00 pm - 6:00 pm	Workshops on building and supply structure related issues
	7:00 pm	Dinner
May 30:	9:00 am	Discussions
	1:00 pm	Summary of the workshops
	2:00 pm	Ending

Please send the completed registration form by e-mail, fax or mail by March 17, 2006 to the address provided (participation cannot be guaranteed if the registration is sent after this date)
